Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the limitations including "a groove of a size and shape corresponding to the upper lug portion" in claim 1, "a cross groove mechanism" in claim 3, "a draw hasp and lever" in claim 4, "a flipped hasp and lever" in claim 5, and "an additional locking screw" in claim 10 must be shown or the feature(s) canceled from the claim(s). Numerals must be used to indicate the claimed limitations in both the specification and the drawings. No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

2. The disclosure is objected to because of the following informalities: numerals must be used in the specification and indicated in the drawings for the claimed limitations as required in item 1.

Appropriate correction is required.

3. Claims 1-10 are objected to because of the following informalities:

claim 1: line 2, "upper lug portion" should be "the upper lug portion", and lines 10 and 12, "lower lug portion" should be "the lower lug portion" because they are both recited previously, and line 8, "grove" should be "groove";

claim 2, "the lug members" lack antecedent basis;
claims 3-5, "the components" lacks antecedent basis.
Appropriate correction is required.

4. Claims 1-10 would be allowable if rewritten or amended to overcome the objection(s) set forth in this Office action.
5. The claims are allowable over the prior art for at least the reason that the prior art fails to reasonably teach or suggest in claim 1 that the lower portion of the drum lug further comprising a hook located at a bottom portion thereof and extending outwardly therefrom to receive the latch for securing the upper lug portion and the lower lug portion to one another as set forth in the claimed combination.
6. Any inquiry concerning this communication should be directed to (David) S.Y. Hsieh at telephone number (703) 308-1031.
